Received another dreaded phone message about a sewage spill. If ever this issue of sewage spills into Lake Wylie by UI/TCWS is resolved, the angst caused by this company and these spills has probably left a permanent scar to my psyche.

Furthermore, the fact that City and State leaders have dragged their feet on this matter, instead of getting ahead of this problem, means that the residents of Tega Cay face more months of dreaded phone messages. This is a breach of trust that only a timely and prudent resolution can hopefully repair.
